MARSHMALLOW CHALLENGE

Marshmallow challenge is an extremely fun and educational way to reinforce key concepts of the practice, Challenge the Process. This is an easy activity that requires minimal space and very few supplies to perform. We divide attendees into teams of 5 members.

We provide each team 1 m long tape, 1 m long string, 20 sticks of spaghetti, and marshmallow. We also provide each team scissors.

Each team has 18 minutes to build the tallest, free-standing structure using the materials supplied to each group. The marshmallow must be attached to the top of the structure you build. After 18 minutes, I will measure the height of each structure that remains standing with the marshmallow on top. The winner is the team whose free-standing structure is the tallest.

At the end of the program we can discuss what was the strategy of the team? Did they have a leader? How did they choose leader? What were the most difficult points of the project? Which decisions made successful or unsuccessful the project?

LET'S GET UP TO THE TOP!
